AUTOMATIC HAND TOWEL AND SOAP DISPENSERS

The City of Pigeon Forge is considering replacing manual hand towel and soap dispensers in some or all of our city facilities. We would like a bid we could consider if we do decide to change. Prices we would consider would be for dispensers, installation labor, and product to determine if this would be a cost effective transition. To transition all of the facilities there will be approximately 100 hand towel dispensers and 200 soap dispensers needed. Without knowing an initial number, we are asking for an individual cost and a quantity cost on all required so we can consider updating our facilities. The City is making NO commitment to purchase any of this equipment or product, but will consider the prices shown when selecting a vendor. Please provide a price for the following:
